

WARNING

CONTERFEIT VALVES

THESE ARE NOT AUTHENTIC Koso/PSP VALVES

We do not manufacture valves with raised faces on the flanges or with seams on the body as shown above. These are not Koso/PSP Valves.

Koso/PSP will not honor any warranty or repairs in connection with these valves nor will we be held liable for any damages or lack of your seismic protection due to the use of these valves. If you are unsure if you have an authentic valve, please contact your local distributor and provide pictures along with your model type and serial number. Do not be fooled by imitation valves.

Koso/PSP continues to provide you with the same high quality product that you have come to know and trust. Demand the best. Demand Koso/PSP.
